

Exposing a Currently Active Domain Portfolio Managed and Operated by Iran's Infamous Ashiyane Digital Security Team - Part Two - An OSINT Analysis

We've recently decided to expand our initial analysis of Iran's flagship Ashiyane Digital Security Team's Internet-connected infrastructure on our way to assist the security community on its way to track down monitor and attempt to take offline a huge portion of Iran's flagship Ashiyane Digital Security Team Internet-connected infrastructure.

In this analysis we'll take a deep dive inside the Internet-connected infrastructure of Iran's flagship Ashiyane Digital Security Team and will offer an in-depth peek inside its Internet-connected infrastructure.

Sample malicious and fraudulent domain portfolio known to be managed and operated by Iran's flagship Ashiyane Digital Security Team:
